SOURCE: [REDACTED]

1. On 30 June 1951, an undetermined number of mines in wooden boxes were laid at short intervals along the border near Horni Steindlberg (N 50/Q 17). The mine field was narrow in depth and had two unmined lanes. On 1 July, signboards with a skull and the inscription "Caution-Mines" were placed at the mine field.

2. In the Czech border area, the border guard units in the Steindlberg area were subordinate to the PS brigade in Sušice (Schwetzingen) (N 50/Q 28). \*\*

25X1A

Comment. Since mines were also laid at As and Volary, the laying of mines in Steindlberg area appears probable. See [REDACTED].

Comment. The area from Uvrsko to Modrava is controlled by authorization of a border guard brigade the headquarters of which is in Sušice.
